

Power BI Step-by-Step Dashboard Guide

Step 1: Load Data into Power BI

- Open Power BI Desktop
- Click Home → Get Data → Excel
- Select your dataset file
- Click Load
- Your data will appear in the Fields panel

Step 2: Data Cleaning (Power Query)

- Click Transform Data
- Check data types (Date, Text, Number)
- Remove blank rows
- Remove duplicates (Home → Remove Rows → Remove Duplicates)
- Fix date format (Change type → Date)
- Click Close & Apply

Step 3: Data Modeling

- If using a single table, you can skip this step
- Go to Model View
- Create relationships (e.g., Order_ID or Customer_ID)
- Ensure one-to-many relationship
- Set correct cross filter direction (Single)

Step 4: Create DAX Measures

Total Sales

```
Total Sales = SUM(Sales_Data[Sales])
```

Total Profit

```
Total Profit = SUM(Sales_Data[Profit])
```

Profit Margin %

```
Profit Margin % = DIVIDE([Total Profit], [Total Sales], 0)
```

Total Orders

```
Total Orders = DISTINCTCOUNT(Sales_Data[Order_ID])
```

Avg Order Value

```
Avg Order Value = DIVIDE([Total Sales], [Total Orders])
```

Step 5: Create Dashboard (Report View)

KPI Cards (Top Section)

- Use Card visual
- Add Total Sales, Total Profit, Total Orders, Profit Margin
- Increase font size and add  currency formatting

Sales Trend (Line Chart)

- Axis: Order_Date
- Values: Total Sales
- Use Month hierarchy

Sales by Region (Bar Chart)

- Axis: Region
- Values: Total Sales

Sales by Category (Pie Chart)

- Legend: Product_Category
- Values: Total Sales

Top 5 Products

- Axis: Product_Name
- Values: Total Sales
- Apply Top N filter = 5

Map Visual

- Location: State
- Size: Total Sales

Table Visual

- Add Product Name, Sales, Profit

Step 6: Add Filters (Slicers)

- Add slicers for Date, Region, Category, Segment
- Place slicers on left side

Step 7: Formatting

- Use light grey background
- Maintain spacing between visuals
- Use consistent font

- Add dashboard titles

Step 8: Interactivity

- Enable drill-down
- Add tooltips
- Sync slicers across visuals

Step 9: Add Insights

- West region has highest sales
- Technology category performs best
- Profit margin varies by region

Step 10: Save & Export

- Save file as .pbix
- Publish to Power BI Service (optional)
